## Introduction

The Local Government Act 1999 and Local Government (Financial Management) Regulations 2011 require councils to develop and adopt long term financial plans that include:

- A summary of proposed operating and capital investment activities presented in a manner consistent with the Model Financial Statements entitled Uniform Presentation of Finances, and
- Estimates and target ranges adopted by the council for each year of the long term financial plan with respect to an operating surplus ratio, a net financial liabilities ratio and an asset renewal funding ratio presented in a manner consistent with the Model Financial Statements entitled Financial Indicators.
- A long term financial plan must be accompanied by a statement which sets out:
- The purpose of the long term financial plan
- The basis on which it has been prepared
- The key conclusions which may be drawn from the estimates, proposals and other information in the plan.

This plan will be reviewed at least annually and consider new information as it comes to hand throughout the budget review cycle.

Councils 2023/24 to 2032/33 Long Term Financial Plan has been prepared according to these legislative requirements.

## Purpose of the Long Term Financial Plan

The Long Term Financial Plan (LTFP) is part of Council's strategic management framework.
The LTFP expresses the objectives within its Community Plan in financial terms. It is a guide for future action based on the longer-term impact of revenue and expenditure. The long term financial implications can be readily identified and if warranted, proposed future activities can be revised.

Long term financial plans are particularly important for local governments as they are responsible for managing a high level of long-lasting assets relative to their income base. A council may have long periods with modest levels of asset renewal requirements and then other periods when very significant outlays are necessary. All councils need to generate revenue in an equitable manner over time and ensure they have capacity to finance peaks in asset management and other outlays when, and including by way of borrowings, where necessary.

The preparation of a LTFP generates improved information to guide decisions about the mix and timing of outlays on operating activities and additional assets and the funding
implications of these. Without sound LTFP and Infrastructure and Asset Management Plans (IAMPs), an organisation with significant asset management responsibilities is unlikely to have sufficient data to determine sustainable service levels and affordable asset management strategies, appropriate revenue targets and optimal treasury management.

## Strategic Context

Strong links between the LTFP and other strategic documents are vital in order to provide an accurate picture of Council's financial sustainability and ability to meet is aspirations.

The LTFP provides direct connection between the :

- Community Plan 2019 to 2029
- Infrastructure and Asset Management Plan
- Annual Business Plan and Budget

## Community Plan

Council's Community Plan 2019 to 2029 includes the following statements:

## Vision Statement

Kingston SE is recognised as a popular Limestone Coast tourist and lifestyle destination. The main streets, parks and beaches are abuzz with locals and holiday makers, all enjoying our beautiful environment, cafes, restaurants, and local produce. Home-grown businesses and primary producers are thriving and the district is well known for its family friendly atmosphere. The community share a sense of pride and common purpose.

Our vision will be achieved by creating a Thriving Destination that encourages tourism and lifestyle living, through Best Practice Planning of Public spaces and Neighbourhoods, supported by Excellence in Assets \& Infrastructure and Strong Communities. Our organisation will be known for Progressive Leadership in community engagement and management of community assets.

## Themes

- A Thriving Destination
- Best Practice Planning
- Excellence in Assets and Infrastructure
- Strong Communities
- Progressive Leadership

The content of the LTFP has been prepared based on the pursuit of Councils vision and themes.

## Statement of Financial Sustainability Based on Forecasts

The definition of Financial Sustainability for Local Government emanated from the independent SA Local Government Financial Sustainability Inquiry in 2005.

It is defined as follows:
"A Council's long term financial performance and position is sustainable where planned long term service and infrastructure levels and standards are met without unplanned increases in rates or disruptive cuts to services."

The definition was endorsed nationally at the National General Assembly of Local Government in Canberra in November 2006.

## Why is it important?

The importance of financial sustainability is to ensure that each generation 'pays their way', rather than any generation 'living off their assets and leaving it to the future generations to address the issue of repairing worn out infrastructure'.

The Council is the custodian of infrastructure and assets with a fair value of $\$ 148.2 \mathrm{M}$ (excluding Land).

Council has the responsibility to ensure that assets are managed efficiently and effectively and that decisions regarding the acquisition of new assets and the sale and maintenance of existing assets are undertaken in an open and transparent fashion.

Sound asset management is the key to financial sustainability. There is clearly a direct link between the development and implementation of Council's Infrastructure and Asset Management Plan and its Long Term Financial Plan. Council expends considerable funds on the acquisition and management of assets. It will be exposed to financial risk over the longer term if budget processes have little regard for ongoing costs associated with the maintenance and renewal of these assets beyond the current budget period. It is incumbent on Council to carefully consider information about the stock of infrastructure and other assets and the contribution that current ratepayers are making to their consumption.

Council is facing many challenges in managing infrastructure and other assets due to issues such as increasing community expectations; replacement of ageing infrastructure; new legislative requirements (e.g. EPA standards) and the growing demands of an ageing population. However, the single largest issue is the immense and growing issues Council has in relation to marine infrastructure.

The term "asset management" is used to describe the process by which the Council manages physical assets to meet current and future levels of service. The Council determines the policy framework within which existing assets are managed and new assets acquired and the overall program for maintenance and disposal of assets. This policy framework typically has regard to the link between the purchase, upgrade and disposal of assets, the delivery of services to communities and consultation processes required to ensure the community is well informed and able to influence the decisions of the Council.

The LTFP is the mechanism by which the funding requirements for the Infrastructure and Asset Management Plan and Community Plan are implemented to ensure Council continue to operate in a financially sustainable way and continue to maintain and develop our district to meet the needs and aspirations of the community.

## How is it measured?

To ensure that each generation 'pays its way', it is crucial that current ratepayers effectively fund the current net cost of services provided and community assets consumed. Without this being achieved (i.e. an operating deficit), future generations are effectively subsidising the current cost of service provision and asset consumption. Based on this, the financial sustainability of a Council is measured by the surplus/(deficit) (before capital revenues) disclosed in the Income Statement. A Council's long term financial sustainability is dependent upon ensuring that on average, over time its expenses are less than its associated revenues.

In addition to the Operating Surplus/(Deficit), the following indicators have been developed specifically to focus attention on factors identified as key to securing long term financial security:

- Operating surplus ratio
- Net financial liabilities ratio
- Asset renewal funding ratio

For each indicator, appropriate targets have been nominated to enable meaningful performance measurement. These indicators are consistent with industry standards and are discussed in more detail later in the document.

## How is Council addressing the issue?

This Long Term Financial Plan sees Council operating at a significant deficit from 2024/25 to 2030/31 of the plan, finally reaching a surplus position in the 2031/32 year, while keeping rate increases to a minimum.

The LTFP demonstrates that Council will continue to experience financial pressure, largely due to ongoing coastal management costs. It is anticipated efficiency gains will reduce the cost of dredging at Cape Jaffa which accounts for a large proportion of coastal management costs. Further, as Council reaches a sustainable position with sand management at this location, it is anticipated that a decrease in the amount of sand required to be moved will ensue.

Council's long term financial management strategy has carefully considered the ongoing cost of coastal management at Cape Jaffa, the continued maintenance of existing community assets, the sustained economic development of the district, and returning the organisation to surplus as soon as possible.

In year nine (9) of this plan, Council will return to surplus and increase its surplus position for the remaining year of the plan, achieving a healthy operating surplus ratio of $1.70 \%$ in year ten (10) with healthy cash reserve of approximately \$2.3M.

Council's sound cash position is expected to enable Council to undertake asset management in a thorough and sustainable manner and to continue to deliver key strategic objectives in accordance with Council's Community Plan 2019 to 2029.

The Long Term Financial Plan will be updated at least annually as part of the Annual Business Planning process to monitor Council's attainment of its financial goals and help determine what refinements and further actions may be warranted.

## Basis of Preparation

## Financial Strategy

Council is focused on returning the operational surplus (deficit) to a balanced position, to ensure ongoing financial sustainability. The LTFP projects a steady improvement in Council's financial position over the next eight (8) years, returning to surplus in year nine (9). This is based on the achievement of the financial strategies described below:

1. Where possible, consolidate community assets through best practice planning of public spaces and infrastructure. This strategy will help to reduce ongoing maintenance and depreciation costs.
2. Undertake construction of new assets and projects that directly support Council's 2019 to 2029 Community Plan.
3. Only proceed with major new works if external funding is secured.
4. Where an operational grant is sought and additional council funds are required to be contributed, then careful consideration will be given to long term benefits and costs.
5. Council's Rating Policy will be applied to ensure all rate payers are contributing in accordance with taxation principles. In year 1 of the plan an average of $6 \%$ general rate increase (including growth) has been applied. For subsequent years, total rate revenue raised will increase by $1 \%$ above CPI, plus $0.5 \%$ for growth.
6. Service charges for the following are proposed to be increased to enable Council to fully recover the costs associated with the delivery of the services:
a. Community Wastewater Management Scheme (CWMS)
b. Mobile Garbage Bin collection
7. Grant revenue will be targeted in a proactive and strategic manner. This means that grant revenue to build new assets would only be pursued and accepted if the new assets were deemed to be of economic benefit and necessary to the community and in line with Council's Community Plan 2019 to 2029.
8. Services provided by Council will need to be reviewed through the course of the plan, cost pressures related to delivery of some services will be assessed and rationalised for efficiency and to reduce the financial impact to rate payers and council resource allocation.

## Influences and Challenges

## External

1. The Reserve Bank of Australia (RBA) has an inflationary target range of between $2 \%$ and $3 \%$ per annum. The RBA has indicated that it will continue to increase cash rates until the inflation is within its target range.
2. State and Commonwealth Policy/ Decisions, and funding
a. Local Government Reform
b. Cost shifting.
3. Increases to the Superannuation Guarantee Levy.
4. Depreciation - increase in value of Council's infrastructure due to inflation.
5. Adverse economic conditions with higher than anticipated inflationary pressures coupled with higher than expected interest rates.
6. Maintaining council rates and charges in an environment of significant recurrent increases in property valuations and balancing the increases in rates across the ratepayer base at an acceptable level.
7. Controlling costs in an environment where cost increases are increasing above CPI such as:
a. Utilities
b. Insurance
c. Fuel.

Internal

1. Increase in salaries/ wages as per Enterprise Bargaining Agreements (EBA).
2. Council's strategic decisions (based on key financial indicators).
3. Ongoing costs associated with legislated community consultation requirements and internal controls/ risks.

Key Assumptions
The following assumptions have been built into the forecast calculations:

| Description | LTFP Assumptions (Years 1-10) |  |  |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $23 / 24$ <br> Year 1 <br> $\%$ | $24 / 25$ <br> Year 2 <br> $\%$ | $25 / 26$ <br> Year 3 <br> $\%$ | $26 / 27$ <br> Year 4 <br> $\%$ | $27 / 28$ <br> Year 5 <br> $\%$ | $28 / 29$ <br> Year 6 <br> $\%$ | $29 / 30$ <br> Year 7 <br> $\%$ | $30 / 31$ <br> Year 8 <br> $\%$ | $31 / 32$ <br> Year 9 <br> $\%$ | $32 / 33$ <br> Year 10 <br> $\%$ |
| General Rates (inclusive of growth) | 6 | 5.1 | 4.5 | 4.5 | 4.5 | 4.5 | 4.5 | 4.5 | 4.5 | 4.5 |
| Projected increase in Total Rate <br> Revenue sourced from Development <br> Growth | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 | 0.5 |
| Increase in other income (excluding <br> Rates and Grants) | 7.9 | 3.6 | 3 | 3 | 3 | 3 | 3 | 3 | 3 | 3 |
| Interest Income (based on 10 year <br> bond rate) | 3.31 | 2.83 | 3.01 | 3.19 | 3.37 | 3.55 | 3.78 | 3.3 | 3.67 | 3.59 |
| Increase in Employee costs (excluding <br> superannuation) | 6.35 | 2.75 | 2.75 | 2.75 | 2.75 | 2.75 | 2.75 | 2.75 | 2.75 | 2.75 |
| Finance Costs (based on bond rate <br> yields) | 5.26 | 4.78 | 4.96 | 5.14 | 5.32 | 5.50 | 5.75 | 5.78 | 5.62 | 5.54 |
| Materials, Contracts and Other | 7.9 | 3.6 | 3 | 3 | 3 | 3 | 3 | 3 | 3 | 3 |
| Forecast Inflation (Year 1 based on <br> Adelaide March CPI) future years <br> based on RBA February 2023 forward <br> forecasts)). | 7.9 | 3.6 | 3 | 3 | 3 | 3 | 3 | 3 | 3 | 3 |
| Capital Expenditure |  |  |  |  |  |  |  |  |  |  |

## Other Assumptions

The following assumptions have been built into the forecast calculations:

- The superannuation guarantee contribution is legislated to increase (stepped) by $0.5 \%$ per annum from the current 10.5\% to 12\% by 1 July 2025.
- The content of the LTFP is based on objectives, strategies and actions included within Council's Community Plan 2019 to 2029.
- No changes to recurrent service levels.
- No changes to employee levels for life of the plan.
- Existing fees and charges to be increased in line with the revised fees and charges schedule.
- Non-recurrent grants to be based on confirmed funding levels only.
- Financial Assistance and Roads to Recovery Grants to remain throughout the life of the plan.
- Council resolutions for expenditure relating to future years.
- New assets result in maintenance increase of $1 \%$.
- Annual Indexation of assets.
- Depreciation escalates based on new assets.
- Ongoing government operating grants are included at known amounts or where there is a reasonable expectation of continuation. If these are adjusted or removed, the corresponding expenditure is also adjusted or removed.
- Expenditure on assets as per the requirements of the Infrastructure and Asset Management Plans.
- The LTFP 2022/23 financial results are based on Council's forecast third quarter financial results.
- Assumptions are reviewed annually when the LTFP is reviewed.

Operating Projects
A summary of one of Operating Projects included in the LTFP.

| Project Name | \$'000 | $\begin{aligned} & 24 / 25 \\ & \text { Year } 2 \end{aligned}$ | $\begin{aligned} & 25 / 26 \\ & \text { Year } 3 \end{aligned}$ | $\begin{aligned} & 26 / 27 \\ & \text { Year } 4 \end{aligned}$ | $\begin{aligned} & 27 / 28 \\ & \text { Year } 5 \end{aligned}$ | $\begin{aligned} & 28 / 29 \\ & \text { Year } 6 \end{aligned}$ | $\begin{aligned} & 29 / 30 \\ & \text { Year } 7 \end{aligned}$ | $\begin{aligned} & 30 / 31 \\ & \text { Year } 8 \end{aligned}$ | $\begin{aligned} & 31 / 32 \\ & \text { Year } 9 \end{aligned}$ | $\begin{gathered} 32 / 33 \\ \text { Year } 10 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Line Marking | 40 | X |  | X |  | X |  | X |  | X |
| Hard-waste disposal | 38 | x |  | x |  | x |  | x |  | x |
| Election Expense | 45 |  |  | x |  |  |  | x |  |  |
| By Law Review | 6 |  |  |  |  |  |  |  | x |  |
| Elector Representation Review | 7 | x |  |  |  |  |  |  |  |  |
| Asset Valuations/ Condition Assessments | 40 |  | x | x |  |  | x | x |  |  |
| Insurance Valuations | 10 |  | x |  |  |  | x |  |  |  |

New or Upgraded Assets
New or upgraded assets have been fully funded in the LTFP in line with the IAMP

| Project Name |  | $\begin{aligned} & \hline 23 / 24 \\ & \text { Year } 1 \\ & \${ }^{\prime} 000 \end{aligned}$ | $\begin{aligned} & \hline 24 / 25 \\ & \text { Year } 2 \\ & \$ \prime 000 \end{aligned}$ | $\begin{aligned} & 25 / 26 \\ & \text { Year } 3 \\ & \$ ’ 000 \end{aligned}$ | $\begin{aligned} & \hline 26 / 27 \\ & \text { Year } 4 \\ & \$ \prime 000 \end{aligned}$ | $\begin{aligned} & \hline 27 / 28 \\ & \text { Year } 5 \\ & \$ \$^{\prime} 000 \end{aligned}$ | $\begin{aligned} & \hline 28 / 29 \\ & \text { Year } 6 \\ & \$ \prime 000 \end{aligned}$ | $\begin{aligned} & \hline 29 / 30 \\ & \text { Year } 7 \\ & \$ \$^{\prime} 000 \end{aligned}$ | $\begin{aligned} & \hline 30 / 31 \\ & \text { Year } 8 \\ & \${ }^{\prime} 000 \end{aligned}$ | $\begin{aligned} & \hline 31 / 32 \\ & \text { Year } 9 \\ & \$ ’ 000 \end{aligned}$ | $\begin{gathered} \hline 32 / 33 \\ \text { Year } 10 \\ \$ \prime 000 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Wyomi Rock Seawall | (1) | 2,605 |  |  |  |  |  |  |  |  |  |

## Excluded Projects

The following capital projects have not been incorporated into forecast calculations:

## CWMS Ponds

Council will need to engage engineers to undertaken a condition assessment of the CWMS ponds as it is likely the ponds will need desludging and will require new liners. At this time an amount has not been incorporated into the plan due to uncertainties with the condition of the ponds and the value/ timing of potential works.

## CWMS Extension

Council has received funding from the LGA CWMS Committee to prepare a concept design with costings for the expansion of the current Kingston CWMS to Rosetown in the north and Pinks Beach in the south. At this stage the costs for the expanded Kingston CWMS are unknown and Council has not made a decision on the project.

## Financial Sustainability - Key Financial Indicators

Financial indicators are to be calculated in accordance with the procedures set out in Information Paper 9 - Financial Indicators prepared for the LGA Financial Sustainability Program.

## Indicator 1 - Operating Surplus Ratio

The operating surplus ratio is the operating surplus (or deficit) expressed ratio as a percentage of operating income.

| Operating Surplus/ (Deficit) |
| :---: |
| Total Operating Income |

## Purpose:

This ratio is designed to highlight the financial performance for the year and is a key indicator for financial sustainability.

A positive ratio indicates the percentage increase in operating income or the approximate decrease in operating expenses required to achieve a break-even operating result.

A negative result indicates that Council is operating at a level beyond their means which will present long term financial difficulties.

It is important that Council aims to achieve an operating surplus within the life of this Plan. A trend in long term deficits would eventually result in Council struggling to maintain standards of service provision.

|  | $23 / 24$ | $24 / 25$ | $25 / 26$ | $26 / 27$ | $27 / 28$ | $28 / 29$ | $29 / 30$ | $30 / 31$ | $31 / 32$ | $32 / 33$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Year | Year | Year | Year | Year | Year | Year | Year | Year | Year |
|  | 1 <br> $\%$ | 2 | 3 |  |  |  |  |  |  |  |
| $\%$ | $\%$ | 4 | 5 | 6 | 7 | 8 | 9 | 10 |  |  |
| $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ |  |  |  |  |
| Each year | 0.15 | -9.75 | -8.39 | -8.48 | -5.13 | -4.35 | -2.52 | -1.63 | 0.53 | 1.7 |
| 5 Year <br> Avg. | -6.32 | -7.22 | -5.77 | -4.42 | -2.62 | -1.25 |  |  |  |  |

Target:
5 year average of 0\%, $-2 \%$ and $2 \%$ in any one year

In general Council should not be targeting operating deficits, nor should it be targeting large operating surpluses. Both results negatively affect intergenerational equity.

The range was selected to target the generation of revenue, sufficient to cover Council's operation without over-rating the community. The calculation should be undertaken on a yearly basis. It is also beneficial to review the target in terms of a trend overtime opposed to a single year.

Currently Council is operating outside of these parameters, in years 2 to 6 of this plan. Council will need to work towards improving their operating result to move within these targets.

## Indicator 2 - Net Financial Liabilities Ratio

The Net Financial Liabilities ratio is calculated by expressing net financial liabilities at the end of a financial year as a percentage of operating income for the year.

> Net Financial Liabilities (NFL)

> Total Operating Revenue

## Purpose:

This ratio is a measure of the extent to which Council is managing its debt. It's a broader measure of debt than simply looking at borrowing levels. It highlights that borrowings are often an effective means of financial sustainability, rather than trying to fund all assets and services from operating income. The ratio expresses the amount as a percentage of Council's income.

A steady ratio means Council is balancing the need to borrow against their ability to afford debt. An excessive ratio may mean Council is borrowing beyond their means and cannot generate the income required to service assets and operations.

Council's Net Financial Liabilities ratio includes community group, Cape Jaffa development and Council borrowings. It is acknowledged that community group and Cape Jaffa Development Company borrowings are serviced by those organisations through a funding agreement.

|  | $23 / 24$ | $24 / 25$ | $25 / 26$ | $26 / 27$ | $27 / 28$ | $28 / 29$ | $29 / 30$ | $30 / 31$ | $31 / 32$ | $32 / 33$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Year | Year | Year | Year | Year | Year | Year | Year | Year | Year |
|  | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ |  |
| Each | -10.66 | -12.30 | 5.09 | $\mathbf{7 . 9 8}$ | 11.73 | 9.99 | 9.19 | 9.83 | $\mathbf{5 . 2 2}$ | 1.00 |

Target:

## Maximum of $100 \%$ in any single year Considered each year against Council's Operating Surplus Ratio

Target percentage over time should be above zero, this means that Council is using debt as a tool in distributing the burden of debt over more than one generation of ratepayers (intergenerational equity).

Where the result is negative Council has more cash available than what is owed in Council borrowings. This may indicate that Council is either raising more rates that it needs or is not providing appropriate services and assets to the community.

A falling result means Councils debt position is improving.

In order to ensure this target is meaningful it needs to be aligned with the planning strategy of Council. If Council is in a significant development stage, then a higher rate may be acceptable. The target needs to be flexible based on community needs and long term financial sustainability.

## Indicator 3 - Asset Renewal Funding Ratio

The Asset Renewal Funding Ratio is calculated by measuring capital expenditure on renewal or replacement of assets for a period, divided by the optimal level of such expenditure proposed in the Council's Infrastructure and Asset Management Plan (IAMP).

## Purpose:

This ratio indicates the extent to which existing assets are being renewed and replaced, compared with the asset renewal and replacement expenditure identified in Council's IAMP.

Council's IAMP determines, for the given level of service, when assets need to be replaced to ensure that level of service is maintained. If Council is achieving close to $100 \%$ for this measure, then it is maintaining the current service levels delivered by assets. This ratio simply measures if Council is performing the required work to replace assets and maintain the level of service.

|  | $23 / 24$ | $24 / 25$ | $25 / 26$ | $26 / 27$ | $27 / 28$ | $28 / 29$ | $29 / 30$ | $30 / 31$ | $31 / 32$ | $32 / 33$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Year | Year | Year | Year | Year | Year | Year | Year | Year | Year |
|  | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ | $\%$ |  |
| $\%$ |  |  |  |  |  |  |  |  |  |  |
| $\%$ | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 |  |
| Each <br> year | 100 | 100 | 100 | 100 | 100 | 100 | 100 |  |  |  |
| 5 year <br> Avg. | 100 | 100 |  |  |  |  |  |  |  |  |

Target:
5 year average of $100 \%$, between $90 \%$ and $110 \%$ in any one year

In general, Council should be targeting around $100 \%$ of the replacement works determined by the Infrastructure and Asset Management Plan to ensure consistent service delivery.

A lower ratio suggests that Council is not maintaining assets and infrastructure in order to optimise asset lives. A higher ratio suggests that Council is replacing assets earlier than needed.

Currently Council is operating within targeted parameters.

## Uniform Presentation of Finances

The Uniform Presentation of Finances (on page 22), together with the results of the key financial indicators provides a summarised report that focuses on Council's finances at a strategic level.

This summary highlights the operating surplus or deficit and shows the 'net lending/ (borrowing)' as the bottom line. The net lending/ (borrowing) takes into account both operating and capital activities for each year.

A zero result means that council has met all of its operating and capital expenditure from the current year's income. A net lending result means that Council has excess funds for the year after paying for all operating and capital expenditure. A net borrowing result means that Council has used more funds than it raised in the year in paying for its operating and capital expenditure.

Whilst operating deficits are forecast for the course of the plan, they are reducing over the life of the plan with a surplus position achieved in Year nine (9).

To enable Council to achieve this result it is assumed that rate revenue increases above CPI (in Year 2 onwards) coupled with cost savings through improved service delivery efficiencies will achieve this surplus position.

In summary, based on the expected levels of capital expenditure and councils operating position over the life of the plan, it is envisaged that cash reserves will be drawn down in order to fund theses levels of expenditure. Furthermore, there will be a requirement for loan borrowings in 2025/26 to fund $50 \%$ of the major capital project.
